## Making life easy

Specialist in small household electronics! We enjoy developing, sourcing, and delivering electrical products that help our business partners succeed in today's highly competitive marketplace with their optimum price and quality.

For over 30 years, EMOS companies have offered small household electrical products that are part of everyone's life. Under the EMOS brand, there are mainly batteries, light sources, luminaires for domestic and industrial use, extension leads, flashlights, antennas and small electronic devices – multimeters, testers and bells. In five countries, there are over 450 people employed to ensure that our products are of the best quality and get delivered to you, our customers, as quickly as possible. Since 2022, we have become part of the prestigious multinational Legrand Group, providing us with further opportunities to innovate and improve our service to you.

Direct distributor for the Czech Republic, Slovakia, Hungary, Slovenia, and Croatia.

### EMOS basic philosophy

**OPTIMAL PRICE/  
QUALITY RATIO  
OF PRODUCTS**

Each product is subject to strict quality control by a team of inspection staff directly at the manufacturer's site and our laboratory. We carry out nearly 1,100 tests a year, supervised by 25 specialists.

**24-HOUR  
STOCK  
AVAILABILITY**

We offer excellent stock availability of our products and fast delivery to our customers. A total storage area of over 16,000 m<sup>2</sup> allows us to keep more than 95% of the items in our range in stock and in sufficient inventory.

**SPEED AND  
EASE OF  
COMMUNICATION**

Customers communicate with us in the way that suits them best - through sales representatives, online B2B and B2C portals or by phone. 90 EMOS Group sales representatives visit an average of 650 customers per day.

### About the multinational Legrand Group

Legrand is a global electrical and digital infrastructure specialist, offering high-value-added products and solutions that improve lives by transforming the spaces where people live, work, and meet. The Legrand Group employs more than 38,200 people in nearly 90 countries and works to improve buildings' electrical and digital infrastructures, helping to digitize them and reduce their carbon footprint. Legrand has solutions for all building types - residential buildings, data centers, other non-residential buildings, industrial spaces, and infrastructures. The Group's technological expertise, leadership position, the breadth and diversity of its offerings, its international presence, and the strength of its brands combine to make Legrand a global leader.

# Christmas LED Lights CONNECT SYSTEM

Light up any occasion! Whether it's decorating your home for Christmas or creating a magical atmosphere at weddings and parties. The connect lighting system offers endless decorating possibilities. The basic elements of the connect system STANDARD and PROFI are power supplies (A), extension cables (B) and lighting elements (C), which can be interconnected and combined with each other. This type of lighting is the ideal choice for spectacular outdoor decorations where conventional chain lengths are not sufficient.

# Christmas and Decorative LED LIGHTS

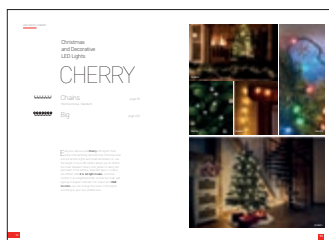

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO - DROP - CLASSIC - CHERRY and TRADITIONAL. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

# Christmas and Home LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

The STANDARD connect system is suitable for indoor and outdoor use thanks to its IP44 protection rating, but only in season, not all year round. The advantage of this connection system is the wide range of light elements (C) in several different colours. Although the most popular Christmas light is the chain, in the connecting system you can choose according to your own design preferences from icicles, curtains, nets or stars for the top of the Christmas tree. Up to **800 LED** lights can be powered from a single power supply (A) connected to extension or splitter cables (B) and light elements (C).

## POWER SUPPLY + TIMER

D1ZW02

D1ZB05

- 1 Power supply has a built-in timer. After the first press of the button, the chain will shine continuously.

- 2 After the second press (green light comes on) the timer is set to 6 hours. Then it will turn off automatically for 18 hours.

At these intervals (6 hours on/18 hours off) it will work automatically until you press the button for the third time.

The PROFi connect system is characterized by increased material durability and an extended 3-year warranty. The high quality rubber cables allow year-round installation without the need for disassembly in any temperature conditions. The individual elements of the system are freely interconnectable, which allows the realization of even very large lighting projects, especially in the exterior. Up to **500 LED** lights can be powered from a single power supply (A) connected to extension or splitter cables (B) and light elements (C).

STEP 1: PREPARATION

POWER SUPPLY  
+ TIMER

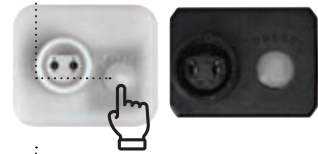

D12W02

D12B05

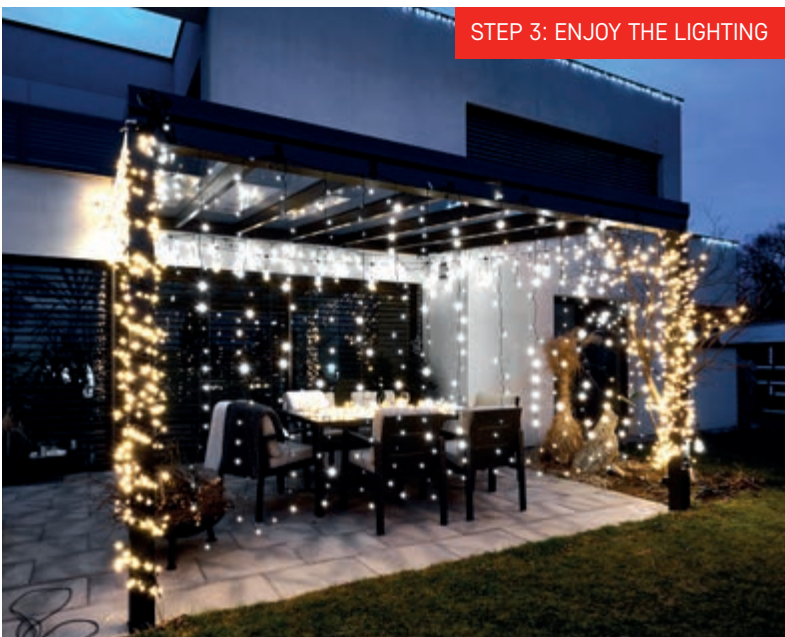

STEP 2: INSTALLATION

**1** Power supply has a built-in timer. After the first press of the button, the chain will shine continuously.

**2** After the second press (green light comes on) the timer is set to 6 hours. Then it will turn off automatically for 18 hours.

At these intervals (6 hours on/18 hours off) it will work automatically until you press the button for the third time.

STEP 3: ENJOY THE LIGHTING

# LED LIGHTS

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree. You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet. There are four series of LED light chains available, differing in LED size and shape - NANO – DROP – CLASSIC – CHERRY and TRADITIONAL. The decisive criteria for choosing the right chain are its length, the number of LEDs and the colour of the light.

Christmas **NANO** chains are an elegant accessory that will surely become your reliable helper when creating Christmas arrangements and decorating your interior. Thanks to the fine, ultra-thin wire, the lights in the chain stand out beautifully and can be used to decorate various parts of your home, including the festive table. The copper wire can be bent to your own preference so you can wrap the lights around an Advent wreath or your favourite figurine on a shelf. Stylish decoration and pleasant illumination is also provided by the chain when placed in a jar or lantern. The universal NANO lights are therefore the obvious choice for creating a cosy atmosphere at various festive occasions.

Multifunctional

To create a true festive atmosphere, the lights on the Christmas tree are indispensable. Whether you decide to use them indoors to brighten up the whole apartment or outdoors as a decoration for the bush in front of the house, the **Classic** series with screen adapter is a great choice in terms of the very wide range of lengths and colours. Selected chain types have 8 to 64 light modes or a remote control. Also lights with a timer function are very practical, which can light up the tree at regular intervals and you don't have to worry about switching them on and off every day.

## Christmas and Decorative LED Lights

# CHERRY

### Chains

Multifunctional, Standard

*page 96*

### Big

*page 102*

Everyone will love the **Cherry** LED lights! Their white orbs perfectly decorate the Christmas tree and act as both lights and small decorations in one. The length of up to 48 metres allows you to stretch the chain between trees in the garden or along the perimeter of the terrace. Selected types of chains are offered with **8 to 64 light modes**, a remote control or an integrated timer, so that the chain will light up at regular intervals. For chains with **RGB function**, you can change the colour of the lights according to your own preferences.

## Christmas and Decorative LED Lights

# TRADITIONAL

### Chains

*page 106*

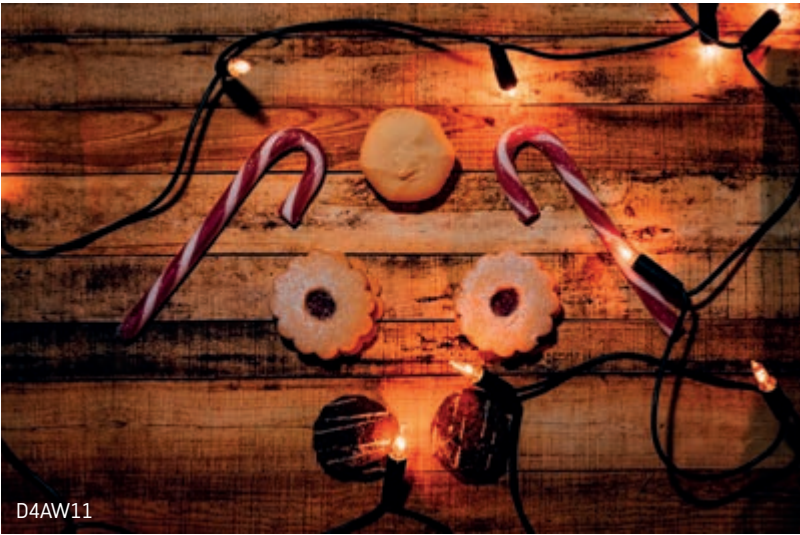

### Cone Lights

*page 108*

Classic Christmas with a modern twist! If you remember the older type of Christmas lights, you will also remember how challenging they were to untangle, and when one of the bulbs burst, the whole string stopped working. Now, however, the situation is completely different and with the new „**Traditional**“ range we delight all lovers of retro bulb lights, which we offer in LED technology. This is a guarantee of long life and financial savings. If you are serious about your Christmas decorations, reach for the acrylic cone lights, which are shaped like little pinecones.

Christmas  
and Home

# LED DECORATIONS

Treat yourself to a fabulous Christmas! For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various candlesticks, hanging decorations, garlands and figures. When deciding whether to purchase, it is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

There are never enough decorations at Christmas. Almost all of us want to make it clear that we are looking forward to the Christmas holidays. That's why it's essential to decorate your windows with lit hanging decorations, such as paper stars or typical candle holders and lanterns, which create an elegant look and brighten up any room at the same time. You can also choose from advent calendars or light-up figurines that are sure to delight children. Most of the interior decorations are battery-powered, so you don't have to worry about obstructing cables so nothing gets in the way of a perfect decorating experience.

With outdoor decorations, you will provide a fabulous spectacle not only for the neighbours, but also for passers-by. For garden owners, we offer light-up characters and animals that will be especially appreciated by the little ones. For a more subtle decoration, you can use a wide selection of pinnable garden decorations or hanging garlands in the form of stalactites and party bulbs. On the other hand, for those who want to be unmissable, we recommend projectors for lighting the whole house. All decorations come with a 3, 4 or 5 m long power cord, so you can turn on your light decorations conveniently from your garage or house.
