WiZ CONNECTED

WiZ Connected is an easy-to-use, Wi-Fi-based smart lighting system. It allows you to personalize your home lighting in a fewz easy steps.

THREE LIGHT COLOR CATEGORIES

DIMMABLE WHITE

Enjoy dimmable, white light in any room of your home.
Perfect for the living room or bedroom, these lights will help create a relaxing atmosphere in any space.

TUNABLE WHITE

Get any shade of dimmable, warm-to-cool white light with tunable bulbs.
Use bright, blue-toned daylight in the morning to feel energised, or wind down after a long day with golden yellow tones.

FULL COLOUR

Light your home in millions of colors or shades of tunable white to transform your rooms for every occasion.
Set the mood for a dinner party with bright colors, and then dim down to a cozy glow when it's time for guests to head home.

EASY PLUG & PLAY

**1. INSTALL YOUR
SMART LED LIGHT**

**2. DOWNLOAD
THE WiZ APP,
LIGHTS WORK WITH
YOUR EXISTING WI-FI**

**3. CONTROL
AS YOU LIKE**

WiZ ECOSYSTEM

WiZ is a connected lighting system and all WiZ Connected products are compatible. That's why WiZ products work with Philips Smart LED bulbs.

Control all of your WiZ lights from a single smart app. Easily set the mood and lighting schedules for your entire household, set schedules, and more!

SPACESENSE™

Lights that detect motion and turn on automatically – That's SpaceSense™! This exclusive technology senses your every move, so that your lights know exactly when you need them!

No matter if you enter from the right or left side of the room, our SpaceSense™ technology will turn on the lights so that no household object gets in your way. This way, you can move around your home without worrying about darkness or obstacles.

WiZ Lights, Wi-Fi, and our App are all you need to enjoy SpaceSense™ at home. Experience hassle-free installation with our non-intrusive setup, while the motion detection works automatically, turning lights on and off as you move. No need for charging or using additional devices!

To get SpaceSense™ in your home, you'll need to install two WiZ lights in the same room, with at least 2m separating them.

IT'S SIMPLE.
IT'S SPACESENSE™.
IT'S WiZ.

LIGHTS THAT WORK THE WAY YOU DO

Control anywhere

Use preset light modes or create your own

Schedule and automate

Use rhythms replicating the natural changes of the sunlight

Give new users access without disturbing any of your presets

Mimic your presence at home while you're away

Control by voice, switches and sensors

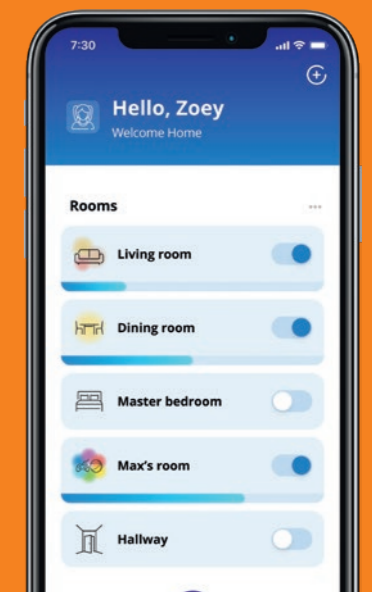

Monitor and optimize energy usage

WiZ RESPECTS YOUR PRIVACY

Your privacy and the security of your data is as important to us as it is to you. With the WiZ app, you sign in anonymously and because you never need to share your email address, phone number or other personal data, all of your information remains private. 100% delightful, 100% worry-free.

HOME MONITORING

With lights that mimic presence and trigger light alarms, a camera with night vision, and SpaceSense™ motion detection, WiZ keeps an eye on your entire home. Control both security and lighting from a single app.

DISCOURAGE TRESPASSERS

Are you home or away? With presence simulation, trespassers will never know. Set lights to turn on and off automatically, making it look like you never left home. All done with WiZ devices and app — no extra stuff required.

TWO-WAY AUDIO

Activate two-way audio talking to deter or help. The built-in speaker and microphone allow easy, remote conversations. You can also use this feature to warn off intruders.

ALWAYS KNOW WHAT'S GOING ON

Activate WiZ monitoring for your entire home or only in certain areas. Disarm monitoring when home life is in full swing — we wouldn't dream of interfering. Open the WiZ app and view the camera to get a live view of what's going on, even when you're away.

ALWAYS FEEL SAFE

Get notified via the WiZ app whenever suspicious activity or security threats are detected. Take immediate action - turn on the lights, trigger a light alarm, turn on two-way audio or activate the WiZ camera.

CLEAR IMAGE, DAY AND NIGHT

Most systems have blind spots. The WiZ smart ecosystem does not. With SpaceSense™, every WiZ light is a motion sensor that detects every movement in the coverage area. Turn on night vision to see in the dark. Subscribe to get more. WiZ security subscription service unlocks additional camera features.

WiZ BULBS

Dimmable warm white

CANDLE E14 C37

BETTER TOGETHER WITH WiZ PARTNERS

WiZ works with major smart home ecosystems worldwide, so you can control WiZ with your preferred system or device. Now you can also make WiZ lights work with any Matter* device to make your smart home even smarter.

* Only lights and smart plugs produced after Q2 2021 support Matter.
